

Evacusafe EvacSHEET

Every minute matters when it comes to saving lives.

That's why companies are turning to quick-to-deploy, life-saving equipment like the EvacSHEET.

EvacSHEET, an under-mattress evacuation sheet, allows for the immediate evacuation of a non-ambulant person. Simply pick up the person and mattress together and slide them along the floor. Instant deployment capability means safety personnel don't lose a second setting up more elaborate equipment if they're not necessary. EvacSHEET also features a unique anti-capsize design and comes with 3 color-coded securing straps to keep the person safely on-board.

EvacSHEET is machine washable, flame-retardant, making it easy to use and easy to maintain so that it's always ready at a moment's notice.

EvacSHEET Specifications

Length (packed/deployed)	12"/72"
Width (packed/deployed)	9"/32"
