

Standard Evacuslider

A simple, cost-effective evacuation option in areas that are space-restricted and stairways that are tight and narrow. Its thick foam mattress with a super-smooth underside is suitable for moving persons who need to be transported horizontally.

- **Integrated foot-pocket and 2 x passenger securing straps**
- **Lightweight, sturdy construction which is extremely portable and easy to use**
- **Made with long-lasting and durable materials**
- **4cm padded mattress provides effective protection**
- **A smooth hard-wearing, heavy duty base which aids movement across floors**

Included with the Standard Evacuslider
